

To Whom it may concern:

We requested and received quotes from 3 different roofing companies. Dynamic roofing gave us a fair price for our 18 Duplex units. They were not the lowest bid or the highest bid but in the middle range and the warranty of his products and workmanship were exceptional. Mr. Colin Clark was very gracious to come to our Association to attend a meeting with our resident's. He gave an extremely professional interview. He gave us information on all the different shingles, materials, etc. that he would be using so we could choose what product and materials to go with. He answered all the questions the residents had at the meeting. We received a proposal & scope of work along with information regarding materials, etc.

He started the roofing job on time, had roofers that appeared to be professionals and they were finished well within the time frame. I highly recommend this roofing company.
