

Lancaster III
2518 Locksley St
Sun City Center. FL 33573

Dear Colin,

Lancaster III Board of Directors would like to give thanks to you and your great group of employees for the excellent job on our recent roof project in Kings Point. From the very beginning when you meet with our roofing committee to address our questions and concerns you gave us a good feeling. With much patience you listened and explained everything. Product warranty(very important to us). applications, crew size, schedule, permits. inspections, wind mitigation report, and codes. After that a step by step walk through of entire roofing process so we would clearly understand what was to happen each day.

When we selected Dynamic Roofing Concepts we felt we where getting a good company, fair price and a hands on owner who would continue to respond to our needs, during the project and into the future. Over the course of the project we requested schedule changes too numerous to count to accommodate our residents no problem. Whenever a need or problem occurred during the day your employees responded quickly to address the problem and take corrective action. When all was said and done Dynamic Roofing still completed our job on time and on budget.

In closing Dynamic Roofing Concepts did a superior job from start to finish and will always be our preferred roofing vendor in Lancaster III.

Sincerely,
Lancaster III
